MEMORANDUM OF POINTS AND AUTHORITIES

F.R.Bankr.P. 2004 provides, in relevant part, that upon motion of any party in interest, the court may order the examination of the debtor or any other entity regarding the acts, conduct, property, liabilities and financial conditions of the debtor, or any other matter which affects the administration of the debtor's estate or the debtor's right to a discharge. Rule 2004 further provides that production of documents may be compelled at this examination.

The Trustee seeks to conduct oral examination relating to the Debtors' assets, liabilities, and financial affairs to ascertain the facts and circumstances surrounding potential manipulation of Debtor's share prices from September 21, 2020 through August 7, 2024, and how the manipulation affected Debtor's financial condition for possible recovery on behalf of Debtor's estate. The Trustee also seeks to compel production of the following documents from TS (all documents of which are for the time frame of September 21, 2020 through August 7, 2024, and in respect to Meta, MMTLP, or other CUSIPs or legend identifiers pertaining to Meta or MMTLP):

- 1. All records of order routing instructions for shares Meta and/or MMTLP received by Broker from a customer, such as the relevant security, quantity, or price, through an electronic interface or any other means of receiving such instructions and all records of responses sent to a customer related to Broker executing such instructions.
- 2. All messages relating to the routing of orders for shares Meta and/or MMTLP of

any type using FIX or binary protocol or any other protocol used for similar purposes, in the original format the data was saved, routed to an exchange or off-exchange trading venue on behalf of a customer of Broker and received from an exchange or off-exchange trading venue on behalf of a customer of Broker.

- 3. All communications electronically stored in the original format captured, including transactions records and emails, related to locating, securing, borrowing, and delivering shares of Meta and/or MMTLP, including records of instances where Broker failed to deliver (FTD) Meta and/or MMTLP and records of how Broker rectified the outstanding FTDs.
- 4. All records of position data representing both Broker's net position as well as the net position of each of Broker's customers in Meta and/or MMTLP, including tallies of shares sold short that were located and/or successfully borrowed as well as shares sold short that were not located and/or suc-cessfully borrowed (e.g. the position corresponding to naked short sales), produced at the frequen-cy such data was recorded).

The requested discovery from the Custodian of Records of TS is well within the scope of examination permitted under F.R.Bankr.P. 2004, which includes:

[t]the acts, conduct, or property or ... the liabilities and financial condition of the debtors, or ... any matter which may affect the administration of the debtor's estate, or to the debtor's right to a discharge. In a ...reorganization case under chapter 11 of the Code, ... the examination may also relate to the operation of any business and the desirability of its continuance, the source of any money or property acquired or to be acquired by the debtor for purposes of consummating a plan and the consideration given or offered therefore, and any other matter relevant to the case or to the formulation of a plan.

WHEREFORE, the Trustee respectfully requests that this Court enter its Order authorizing the examination of the Custodian of Records of TS, as described herein. A proposed Order is
